

No-Code Business Solutions for Every Department

Quickly build and deploy cross-departmental business solutions using no-code tools—flexible enough to extend into pro-code when needed. Empower your teams to act fast, prototype faster, and scale smarter.

Maintenance, Asset & Facilities

Head of Maintenance | Facilities Director | Asset Manager | Estates & Facilities Manager | Head of Technical Services

#Workflow90 – Reactive Maintenance Request

Scenario

A **Head of Maintenance** wants to shorten the time between issue reporting and resolution.

Problem

Faults are logged inconsistently—sometimes via email, sometimes missed altogether—and tracking job status is manual.

Solution

Use WorkMobile to build a reactive maintenance form with asset dropdowns, priority levels, photo upload, and completion sign-off. Real-time alerts and audit trails reduce downtime.

Maintenance, Asset & Facilities

Head of Maintenance | Facilities Director | Asset Manager | Estates & Facilities Manager | Head of Technical Services

#Workflow91 – Planned Preventive Maintenance (PPM)

Scenario

A **Facilities Director** needs evidence of routine inspections for compliance and insurance.

Problem

PPM logs are paper-based, missed inspections go unnoticed, and proof is difficult to gather at audit.

Solution

Create digital checklists for each PPM task (e.g., HVAC, fire safety, lifts), with due dates, time-stamps, technician sign-off, and escalations for failed checks

Maintenance, Asset & Facilities

Head of Maintenance | Facilities Director | Asset Manager | Estates & Facilities Manager | Head of Technical Services

#Workflow92 – Asset Condition & Lifecycle Reporting

Scenario

An **Asset Manager** needs visibility into the health of assets to inform replacement planning.

Problem

Condition assessments are inconsistent, with no structured history across the estate.

Solution

Deploy a mobile form to log condition scores, faults, servicing dates, photos, and forecasted life expectancy. Use backend reports to prioritise replacements and CAPEX forecasting.

Maintenance, Asset & Facilities

Head of Maintenance | Facilities Director | Asset Manager | Estates & Facilities Manager | Head of Technical Services

#Workflow93 – Site Readiness & Handover Checklist

Scenario

An Estates & Facilities Manager is preparing a site for occupancy or major works.

Problem

Multiple teams check different elements (e.g., fire alarms, access control, signage), and info gets lost.

Solution

Create a digital handover checklist with sections for safety, signage, cleanliness, and functionality. Ensure all departments complete and sign off before opening.

Maintenance, Asset & Facilities

Head of Maintenance | Facilities Director | Asset Manager | Estates & Facilities Manager | Head of Technical Services

#Workflow94 – Contractor Onboarding & Site Access

Scenario

A **Head of Technical Services** wants to streamline contractor compliance and authorisation.

Problem

There's no formal check for insurance, RAMS, or inductions before contractors begin work.

Solution

Build a contractor registration workflow to capture documentation, confirm onboarding steps, and issue time-bound access approval. Automate revalidation reminders and expiry alerts.

Maintenance, Asset & Facilities

#Workflow95 – Energy & Utilities Consumption Log

Scenario

A **Facilities Director** wants to track energy, water, or gas usage across a multi-site estate.

Problem

Utility readings are collected ad hoc and often delayed, making reporting and sustainability goals difficult to achieve.

Solution

Create a simple mobile form for recording meter readings per site and per date. Sync data into a central dashboard to monitor usage trends and identify anomalies.

#5ReasonsWhy

5 reasons why IT leaders should choose **WorkMobile** to implement and manage digital workflows across the business

1. IT Stays in Control—Without Becoming a Bottleneck

WorkMobile empowers IT to oversee system governance, data security, and integration—while giving departments the freedom to build and manage their own workflows. IT can approve templates, set rules, and manage user access—without fielding every workflow request.

2. Rapid Deployment Without Custom Coding

Launch cross-departmental solutions in hours—not weeks. WorkMobile’s no-code platform allows IT teams to deliver tactical apps, forms, and reporting tools quickly, without needing to pull developers off core projects. Perfect for addressing urgent business needs fast.

3. Extendable with Pro-Code When Needed

Unlike basic form builders, WorkMobile is designed to scale. IT teams can integrate with existing systems (ERP, HR, CRM, Asset Management), use webhooks or APIs, and customise workflows with advanced logic—bridging no-code speed with enterprise-grade flexibility.

4. Built-In Compliance & Data Governance

Data is encrypted, audit-ready, and stored securely in the cloud. IT teams can enforce compliance policies across departments—ensuring workflows meet GDPR, ISO, or sector-specific standards with full version control, traceability, and approval tracking.

5. Consolidate Tools and Reduce Shadow IT

WorkMobile helps IT standardise the way forms, reports, and mobile data collection are built across the business—reducing the need for rogue spreadsheets, siloed apps, or unapproved tools. One platform. Multiple use cases. Total control.

About Workmobile

Many IT departments will be aware of the challenges involved in developing workflow solutions across departments. Capex, finding the right skillsets, time constraints in deploying and not to mention how to support multiple devices over the long term.

The solution? WorkMobile is an award-winning toolkit that allows you to quickly build solutions enabling staff to capture all essential data.

Available to use on every type of mobile device, it provides IT Managers, with a faster, cheaper and more efficient way to develop streamlined workflow solutions. Stored securely in the cloud, information can be easily accessed and shared. When necessary, businesses can develop a clear electronic audit trail to keep their customers fully informed.

Does it work? Well, since WorkMobile's inception, we have processed over 30 million records. We currently work with over 250 customers who are all benefiting from time and money savings, with the assurance that they are operating in the most compliant manner.

Our aim? To keep providing innovative solutions to our expanding customer base. We would love to help you improve your business processes and give you a competitive advantage.
